

Hear the truth™

JBL® TIM MCGRAW TMG21 HEADPHONES

High-performance, in-ear headphones

Sound matters to three-time GRAMMY®-winner Tim McGraw. And it certainly matters to JBL® engineers. So when the artist and engineers teamed up to design in-ear headphones, superior sound was no accident. The JBL Tim McGraw Artist Series headphones are voiced to deliver the realistic, flat frequency response music professionals demand. High-performance drivers reproduce your favorite music as the artist intended it to be heard, while the silicone sleeves block out ambient noise and ensure a comfortable fit in the ear canal. The lightweight TMG21s come with a protective carrying pouch, so you can take great JBL sound with you wherever you go.
