

TOUR PRO 3

True Wireless Noise Cancelling earbuds with Smart Charging Case™

Sound, like you never heard before.

Get ready for the smartest True Wireless earbuds yet. JBL Tour Pro 3 earbuds come in a newly redesigned Smart Charging Case™ with a handy and more feature-packed touchscreen, giving you full control over your listening experience—while your phone stays in your pocket. Connect seamlessly with any Bluetooth® device and immerse yourself in your music, movies, and games with JBL Spatial 360 sound with head tracking. The JBL Tour Pro 3 are also powered by legendary Hi-Res JBL Pro Sound. When it's time to work, tune out the world with Real-Time True Adaptive Noise Cancelling. On a flight, use the Smart Charging Case™ as an audio transmitter dongle to wirelessly connect to the inflight system (or PC) and enjoy cinematic sound experience while you're in the air. Or at your desk, easily connect the Smart Charging Case™ to your computer, for perfect call quality.

- ▶ Automatically connect to the world around you or have a chat
- ▶ Stay in control with the JBL Headphones app
- ▶ Up to 44 hours of music playback
- ▶ Fast Pair enabled by Google and Microsoft swift pair
- ▶ Bluetooth 5.3 LE audio (*)

Features and Benefits

Use the Smart Charging Case™ for everywhere entertainment

The Smart Charging Case™ transforms into a dongle to wirelessly transmit audio to the earbuds from any AUX or USB-C source, such as TV, gym or plane entertainment systems. Just use one of the two included audio cables to connect and enjoy. Or use the Auracast™ button on the display to share your content to any nearby devices by connecting the device through the Tour Pro 3 Smart Charging Case™.

Legendary JBL Pro sound with hybrid dual-driver

JBL Tour Pro 3 features dual drivers in each earbud. The balanced armature driver handles the high notes with enchanting clarity, while an 10.2mm dynamic driver provides clean, powerful bass and vivid, lifelike vocals. They also deliver Hi-Res certified audio wirelessly with LDAC, Android's native 24-bit high-resolution audio codec, delivering three times more data than Bluetooth for exceptional audio quality.

Immersive JBL Spatial 360 sound with Head Tracking

Whether you're listening to your favorite playlist, watching a movie, or playing a game, JBL Spatial 360 sound transforms stereo sound from any source or any device into a truly immersive sound experience. And when you turn on Head Tracking, everything will sound even more natural and realistic—sounds feel like they come from outside your head and stay fixed in space.

True Adaptive Noise Cancelling 2.0, real time calibration and custom control

JBL Tour Pro 3 earbuds listen to your surroundings and adjust themselves in real time, so even the loudest sudden noise won't disturb your flow. Use the JBL Headphones app to adjust how much or how little of the outside world you let in. An additional set of foam ear tips allows even better passive isolation.

6 mics for perfect call with JBL Crystal AI Algorithm

Two beamforming outer mics on each earbud, powered by JBL Crystal AI algorithm, pick up your voice and deliver it as clearly as possible, while one inner mic isolates noise. The windproof design means the people you're talking to won't hear distortion, even if you're outside on a windy day. Call equalizer helps you control exactly how you sound to others and how you want them to sound to you. And sound level optimizer helps you bring down loud talkers or turn up quiet talkers. The JBL Tour Pro 3 are also Zoom certified.

A personalized sound experience

Hear and feel every note of your playlist with Personi-Fi 3.0. Shape your audio to match your personal listening profile with interactive customization tools that use precise information about you and your preferences to provide the exact sound curve that suits you best. Or for even more personalization, turn on the Personal Sound Amplification feature to adjust the left and right earbuds balance and amplify the conversations' volume up to +15-20dB.

Automatically connect to the world around you or have a chat

Stay alert to the sounds of the world around you while enjoying your music with Smart Ambient. Customized Ambient Sound raises and lowers the volume in real time, depending on how quiet or noisy your surroundings are. Smart Talk recognizes your voice, automatically pausing the music and enabling your preferred ambient experience whenever you speak.

Stay in control with the JBL Headphones app

All of the JBL Tour Pro 3's smartest features are also ready for you to use and customize in the free JBL Headphones app. Just download the free JBL Headphones app to customize EQ, switch on Adaptive Noise Cancelling, adjust your ambient sound control settings, check your best fit, or find your earbuds. You can also customize how the earbuds behave through the gesture customization or adapt the sound output to audio or video to get the most out of your content. Plus you can customize the Smart Charging Case™ display using one of your photos as wallpaper, choosing the screen language, and selecting which features shortcut to make accessible from the case.

Up to 44 hours of music playback

Enjoy 11 hours of music plus three more full charges with ANC off (11+33H), or 8 hours plus three more full charges with ANC on (8+24H). And you can always get an additional three hours of listening with a quick 10-minute speed charge. The JBL Tour Pro 3 can be recharged wirelessly.

Fast Pair enabled by Google and Microsoft swift pair

Discover Bluetooth accessories in close proximity to your device—then connect with a single tap. With Microsoft swift pair you can seamlessly pair your Bluetooth devices with your Windows 10 PC.

Bluetooth 5.3 LE audio (*)

The JBL Tour Pro 3 feature Bluetooth 5.3, for a more stable and secure connection, so that you can enjoy wireless connection at its best. Featuring the latest Bluetooth technology, your JBL Tour Pro 3 become virtually futureproof. Also, the Tour Pro 3 audio transmitter Smart Charging Case™ supports Auracast™, so that you can share your audio with anyone near you.
