

THE JBL DUET™ II multimedia system provides smooth and accurate sound for any portable music player or computer. With its incredibly easy setup and operation, the JBL Duet II system is a sophisticated approach to achieving great 2-channel sound.

JBL DUET™ II TWO-PIECE SPEAKER SYSTEM

JBL DUET™ II

TWO-PIECE SPEAKER SYSTEM

TECHNOLOGY

The JBL Duet II powered speaker system leverages the extensive audio experience that JBL, Inc., has in the pro and consumer arenas to deliver a world-class listening experience from your laptop or desktop computer. Its 3.5mm mini stereo jack also allows connectivity to a variety of other audio devices. And proprietary Phoenix transducer technology has been utilized to ensure that Duet II speakers offer great bass, crystal-clear midrange performance and silky-smooth highs. To help achieve this, the Duet II system has an onboard JBL® amplifier designed to supply high output with minimal distortion. This powerful transducer and amplifier combination produces great audio whether you're listening to music, checking out the news or playing a challenging game.
