LAVALIER MICROPHONE

USER GUIDE

All product images shown are for illustration purpose only and may not be an exact representation of the product. Actual product may vary in colour, size and finishing. © 2020 HARMAN International Industries Inc. All rights reserved.

CSLM20B

BATTERY-POWERED
LAVALIER MICROPHONE

BOX INCLUDES

- i. CSLM20B battery-powered lavalier microphone
- ii. Tie-clip x 2
- iii. Windshield x 2
- iv. LR44 Battery
- v. 1/4" Adapter
- vi. Carry pouch

CONNECTING THE MICROPHONE TO SMARTPHONES/LAPTOPS

- i. Plug the 3.5mm TRRS connector into the headphone jack of the smartphone/laptop. The lavalier microphone will be used as the default microphone while shooting video & recording audio. Slide the switch on the battery module to smartphone/laptop mode.

CONNECTING THE MICROPHONE TO DSLR CAMERAS/CAMCORDERS/AUDIO RECORDERS

- i. Plug the 3.5mm TRRS connector into the microphone input on the camera/recorder. Insert the LR44 battery into the battery module, with polarity as indicated. Slide the switch on the battery module to Camera mode.

CONNECTING THE MICROPHONE TO MIXER AMPLIFIERS

- i. Use the given 1/4" adapter to plug the microphone into the microphone input of the mixer-amplifier. Insert the LR44 battery in the battery module, with polarity as indicated. Slide the switch on the battery module to Camera mode.

USING THE MICROPHONE

- i. The benefit of a microphone attached to the user's clothes is that the microphone will maintain a constant working distance independent of the user's movements and thus ensure a constant output level. Also, a clip-on microphone allows the user to move about freely and keep their hands free.
- ii. Hold the lavalier microphone firmly & attach the tie-clip to the microphone at a point just below the microphone body, as shown. Attach the windshield on the microphone.

- iii. Attach the microphone to the user's upper body, placing it as close as possible to his/her mouth.

FEATURES

- i. Omnidirectional lavalier microphone with 3.5mm TRRS jack
- ii. Perfect for recording, podcast, interviews, vlogging, etc.
- iii. Compatible with smartphones & most DSLR cameras
- iv. Can be used with mixer-amplifiers
- v. Extra-long cable

SPECIFICATION

Polar pattern	Omnidirectional
Audio frequency bandwidth	60Hz to 18KHz
Sensitivity	-30dB±3dB (0dB=1V/Pa at 1KHz)
Max. sound pressure level	110 dB
Output Impedance	2.2 K ohms
Length	6 Meters
Battery Type	LR44
