Adjustable Tweeter Output Level
(Club 64SQ, 64CSQ)
The Club SQ Speakers offer a tweeter output level control of 0dB or +3dB to optimize system linearity based on installation location.

(Club 64SQ, 64CSQ)

Starfish™ Tweeter Mounting Adapter
(Club 64CSQ)
The Club 64CSQ component Speaker system come with the Starfish™ tweeter mounting adapter. The Starfish tweeter mounting adapter allows for easy installation of the tweeter behind factory grilles and in locations such an A-Pillar. It also provides six break-off mounting tabs to accommodate many mounting configurations. The tweeter can be surface- or flush-mounted. The tweeter can be easily serviced, and doesn't require removing the whole assembly.

I-Mount Tweeter Mounting Kit
(Club 64CSQ)
The I-Mount™ (patent no. 5,859,917) tweeter-mounting system allows easy and versatile installation of tweeters in each of the component systems. It includes a flush cup and surface-mount mounting hardware. With a 1-3/4" cutout and a 1" mounting depth, installation becomes a snap. This allows the tweeter to be flush-mounted and can be angled up to ±40 degrees. Locknuts are included to keep everything in place, and the tweeter can be replaced without removing the whole assembly.
